

Understanding the Scorecard Raw Data (Date: 10/12/2012)

The raw data is available for export in DARMHA related to the following reports:

Export Name	Performance Measure
Served Consumers	Adults and Youth Served - SMI, CA and SED
DARMHA – Reassessed within 7 months	Reassessment - DARMHA Outcomes (NOMS Table)
ANSA – Reassessed in 7 months	Reassessment – CANS or ANSA
Improvement in Needs & Strengths	Improvement in Needs and/or Strengths – SMI, CA and SED
Improved Employment	Employment – SMI and CA adults
Improved in Substance Use Disorder Adults	Substance Use – SMI and CA adults
Reduce Criminal Activity Adults	Criminal Justice – SMI and CA adults
Improved in Substance Use Disorder Youth	Substance Use - Youth
Improved School Performance - Youth	School Performance - Youth

Note: Please refer to the Performance Measure Definitions for more details about the populations and questions included in each measure.

Served Consumers Export

Export Field	Explanation
Local_ID	This is the DARMHA ID
Internal_ID	This is the Internal ID
Agreement_Type	This is the consumer's latest agreement type in the reporting month
Provider_ID	This is the provider id in DARMHA for your organization
Funding_ID	This is the Funding Type
HAPeligibility	This represents the HAP Status
Countable	1 represents that the record was counted in scorecard numbers
CountableAgreement	This represents the consumer's agreement type if the record was countable (Youth are counted as SED)
RepMonth	Month the record is counted in (a consumer may be counted in multiple months)
ReportTargetDate	Reporting Month
CreationDate	Date the data was created

DARMHA – Reassessed within 7 months Export

Export Field	Explanation
Local_ID	This is the DARMHA ID
Internal_ID	This is the Internal ID
Agreement_Type	This is the consumer's latest agreement type in the reporting month
Provider_ID	This is the provider id in DARMHA for your organization
First_NOMS	This is the first NOMS record number
Second_NOMS	This is the second NOMS record number
FirstDate	This is the date of the first NOMS (if blank, there is no NOMS record)
SecondDate	This is the date of the second NOMS (if blank, there is no reassessment NOMS)
OnTime	1 represents "On Time," within 210 days
LateReas	1 represents "Late Assessment," more than 210 days
Reassessed	1 represents an assessment in RepMonth
HAPEligibility	This represents the HAP Status
Funding_ID	This is the Funding Type
Countable	1 represents that the record was counted in scorecard numbers
CountableAgreement	This represents the consumer's agreement type if the record was countable
RepMonth	Month the record is counted in (a consumer may be counted multiple months)
ReportTargetDate	Reporting Month
CreationDate	Date the data was created

ANSA – Reassessed in 7 months Export

Export Field	Explanation
Local_ID	This is the DARMHA ID
Internal_ID	This is the Internal ID
Agreement_Type	This is the consumer's latest agreement type in the reporting month
Provider_ID	This is the provider id in DARMHA for your organization
Visit_1	This is the first assessment record number
Visit_2	This is the second assessment record number
FirstDate	This is the date of the first CANS/ANSA (if blank, there is no assessment record)
SecondDate	This is the date of the second CANS/ANSA (if blank, there is no reassessment)
Algorithm_1	This is the algorithm number for the first assessment
Algorithm_2	This is the algorithm number for the second assessment
OnTime	1 represents "On Time," within 210 days
Reassessed	1 represents an assessment in RepMonth
HAPEligibility	This represents the HAP Status
Funding_ID	This is the Funding Type
Countable	1 represents that the record was counted in scorecard numbers
CountableAgreement	This represents the consumer's agreement type if the record was countable
RepMonth	Month the record is counted in (a consumer may be counted multiple months)
ReportTargetDate	Reporting Month
CreationDate	Date the data was created

Improvement in Needs & Strengths Export

Export Field	Explanation
Local_ID	This is the DARMHA ID
Internal_ID	This is the Internal ID
Agreement_Type	This is the consumer's latest agreement type in the reporting month
Provider_ID	This is the provider id in DARMHA for your organization
StartVisit	This is the time 1 assessment record number
EndVisit	This is the time 2 assessment record number
StartAlgorithm	This is the algorithm number for the time 1 assessment
EndAlgorithm	This is the algorithm number for the time 2 assessment
StartDate	Month the record is counted in (time 2 date)
Mod1_Start	Time 1 average score of the domain (CANS 5-17: BH; ANSA: Functioning)
Mod2_Start	Time 1 average score of the domain (CANS 5-17: Risk; ANSA: BH)
Mod3_Start	Time 1 average score of the domain (CANS 5-17: Functioning; ANSA: Risk)
Mod4_Start	Time 1 average score of the domain (CANS 5-17: Strengths; ANSA: Strengths)
Mod5_Start	Time 1 average score of the domain (CANS 5-17: Caregiver)
Mod1_End	Time 2 average score of the domain (CANS 5-17: BH; ANSA: Functioning)
Mod2_End	Time 2 average score of the domain (CANS 5-17: Risk; ANSA: BH)
Mod3_End	Time 2 average score of the domain (CANS 5-17: Functioning; ANSA: Risk)
Mod4_End	Time 2 average score of the domain (CANS 5-17: Strengths; ANSA: Strengths)
Mod5_End	Time 2 average score of the domain (CANS 5-17: Caregiver)
Mod1_Imp	Time 1 - Time 2 compared to the RCI divided by 10 (1 represents improvement)
Mod2_Imp	Time 1 - Time 2 compared to the RCI divided by 10 (1 represents improvement)
Mod3_Imp	Time 1 - Time 2 compared to the RCI divided by 10 (1 represents improvement)
Mod4_Imp	Time 1 - Time 2 compared to the RCI divided by 10 (1 represents improvement)
Mod5_Imp	Time 1 - Time 2 compared to the RCI divided by 10 (1 represents improvement)
Cons_Imp	1 represents improvement in at least one domain
Countable	1 represents that the record was counted (HAP Eligible and could improve)
ReportTargetDate	Reporting Month
CreationDate	Date the data was created

Improved Employment Export

Export Field	Explanation
Local_ID	This is the DARMHA ID
Internal_ID	This is the Internal ID
Agreement_Type	This is the consumer's latest agreement type in the reporting month
Provider_ID	This is the provider id in DARMHA for your organization
Improvement	Increase in employment level
Stagnation	Same employment level
Decrease	Decrease in employment level
Positive	1 represents improvement or staying at the same level
HAPEligibility	This represents the HAP Status
Funding_ID	This is the Funding Type
Countable	1 represents that the record was counted (HAP Eligible and not "Not in Labor Force" (except for disabled)
RepMonth	Month the record is counted in (a consumer may be counted multiple months)
ReportTargetDate	Reporting Month
CreationDate	Date the data was created

Improved in Substance Use Disorder Adults Export

Export Field	Explanation
Local_ID	This is the DARMHA ID
Internal_ID	This is the Internal ID
Agreement_Type	This is the consumer's latest agreement type in the reporting month
Provider_ID	This is the provider id in DARMHA for your organization
StartVisit	This is the time 1 assessment record number
EndVisit	This is the time 2 assessment record number
StartAlgorithm	This is the algorithm number for the time 1 assessment
EndAlgorithm	This is the algorithm number for the time 2 assessment
StartDate	Time 2 Date
Countable	1 represents that the record was counted (HAP Eligible and could improve)
Time1_Score	Average score of the module
Time2_Score	Average score of the module
Cons_Imp	1 represents improvement (difference of scores =>RCI/10)
ReportTargetDate	Reporting Month
CreationDate	Date the data was created

Reduce Criminal Activity Adults Export

Export Field	Explanation
Local_ID	This is the DARMHA ID
Internal_ID	This is the Internal ID
Agreement_Type	This is the consumer's latest agreement type in the reporting month
Provider_ID	This is the provider id in DARMHA for your organization
StartVisit	This is the time 1 assessment record number
EndVisit	This is the time 2 assessment record number
StartAlgorithm	This is the algorithm number for the time 1 assessment
EndAlgorithm	This is the algorithm number for the time 2 assessment
StartDate	Time 2 Date
Countable	1 represents that the record was counted (HAP Eligible and could improve)
Time1_Score	Average score of the module
Time2_Score	Average score of the module
Cons_Imp	1 represents improvement (difference of scores =>RCI/10)
ReportTargetDate	Reporting Month
CreationDate	Date the data was created

Improved in Substance Use Disorder Youth Export

Export Field	Explanation
Local_ID	This is the DARMHA ID
Internal_ID	This is the Internal ID
Agreement_Type	This is the consumer's latest agreement type in the reporting month
Provider_ID	This is the provider id in DARMHA for your organization
StartVisit	This is the time 1 assessment record number
EndVisit	This is the time 2 assessment record number
StartAlgorithm	This is the algorithm number for the time 1 assessment
EndAlgorithm	This is the algorithm number for the time 2 assessment
StartDate	Time 2 Date
Countable	1 represents that the record was counted (HAP Eligible and could improve)
Time1_Score	Average score of included questions
Time2_Score	Average score of included questions
Cons_Imp	1 represents improvement (difference of scores =>RCI/10)
ReportTargetDate	Reporting Month
CreationDate	Date the data was created

Improved School Performance – Youth Export

Export Field	Explanation
Local_ID	This is the DARMHA ID
Internal_ID	This is the Internal ID
Agreement_Type	This is the consumer's latest agreement type in the reporting month
Provider_ID	This is the provider id in DARMHA for your organization
StartVisit	This is the time 1 assessment record number
EndVisit	This is the time 2 assessment record number
StartAlgorithm	This is the algorithm number for the time 1 assessment
EndAlgorithm	This is the algorithm number for the time 2 assessment
StartDate	Time 2 Date
Countable	1 represents that the record was counted (HAP Eligible and could improve)
Time1_Score	Average score of included questions
Time2_Score	Average score of included questions
Cons_Imp	1 represents improvement (difference of scores =>RCI/10)
ReportTargetDate	Reporting Month
CreationDate	Date the data was created
